

MUTTI ULLAH

React Native Developer & Full Stack Engineer

+923205004945 | mutti0738@gmail.com | LinkedIn: [mutti-qureshi](#)

INTRODUCTION

Results-driven Software Engineer with 2+ years of experience specializing in React Native mobile development and full-stack solutions. Built and deployed production mobile applications for iOS and Android platforms serving 10,000+ users. Expertise in React Native, React.js, Django, and Machine Learning with proven track record of delivering scalable mobile solutions and ML models achieving 85-90% accuracy. Strong experience in cross-platform development, native module integration, and mobile performance optimization.

WORK EXPERIENCE

Full Stack Developer & AI Engineer | Max Remind

September 2024 - May 2025 (Internship)

- Developed 3 production React Native applications for iOS and Android platforms with complex navigation flows using React Navigation
- Implemented state management solutions using Redux and Context API for applications supporting 10,000+ users
- Integrated native device features including camera, biometric authentication, geolocation, and push notifications using Firebase Cloud Messaging
- Built real-time chat functionality with WebSocket integration and optimized FlatList performance for smooth scrolling with 1000+ messages
- Handled platform-specific code for iOS and Android, including native module bridging for custom functionality
- Implemented offline-first architecture using AsyncStorage and local data persistence strategies
- Optimized app bundle size by 40% through code splitting and lazy loading techniques
- Built Automated CRM system with Django and MSSQL, improving data handling for 10,000+ users
- Developed RESTful APIs with Django REST Framework and integrated with React Native using Axios
- Improved application responsiveness by 35% through backend optimization and efficient API design

Business Analyst & Forms Team Lead | PlanStreet

January 2023 - Present (Remote)

- Lead forms development team and analyze business requirements for digital solutions
- Implemented automated workflows, reducing response times by 30%
- Increased user adoption by 40% through strategic team leadership and intelligent form optimization
- Enhanced team productivity by 20% through automation tools and process improvements

TECHNICAL SKILLS

Mobile Development

React Native (Expo & Bare Workflow), React Navigation, Redux, Context API, React Hooks, AsyncStorage, MMKV, Axios, React Query, Native Module Integration, Platform-Specific Code (iOS/Android), FlatList Optimization, Reanimated, React Native Gesture Handler

Mobile Tools & Features

Push Notifications (FCM), Biometric Authentication, Camera Integration, Geolocation, File System, Deep Linking, App State Management, Offline-First Architecture, Image Caching, Code Push, App Store Deployment, Google Play Deployment

AI & Machine Learning

Python, TensorFlow, TensorFlow Lite, scikit-learn, OpenCV, NumPy, Pandas, CNN, Computer Vision, NLP, Statistical Analysis

Web Development

React.js, Django, Node.js, Express.js, JavaScript, TypeScript, RESTful APIs, WebSocket, Django REST Framework

Databases & Tools

PostgreSQL, SQL Server, Firebase (Realtime Database, Firestore, Storage, FCM), Power BI, Git, GitHub, AWS (basic), Google Cloud Platform (basic), Postman, React Native Debugger, Flipper

EDUCATION

Bachelor of Science in Information Technology

Foundation University School of Science and Technology, Rawalpindi

2021 - 2025 (Expected)

Intermediate in Engineering

Superior College, Rawalpindi

2018 - 2020 | Score: 852/1100

CERTIFICATIONS

- Google Advanced Data Analytics

ADDITIONAL INFORMATION

- Experience with both iOS and Android platforms, including platform-specific optimizations
- Familiar with app store submission process and guidelines for both Apple App Store and Google Play Store
- Strong understanding of mobile UI/UX principles and responsive design
- Actively learning React Native's New Architecture (Fabric, TurboModules)
- Open to contributing to open-source React Native projects
